

Water and Sewer Services

Website: N/A

The City of Columbus provides both water and sewer services for our community. Payment for both services are included in your HOA (condominium) fees.

Should you experience an issue with either of these services, ascertain whether a neighbor is experiencing the same issue. If your neighbor is experiencing the same issue, please contact Patterson Merkle at 614.235.1187. If not, the issue is within your unit; please contact a plumber.
